## FULL ENERGY. NO PRETENSE.

Famous Strangers are a four-piece hard rock and heavy metal band from Edmonton, Alberta. Built around the creative partnership of guitarist Jeff Kittlitz and drummer Brian "Beej" Jolly, with bassist Braden Sustrik and vocalist Amanda Kiernan, the band writes without a fixed formula. Heavy metal, hard rock, punk and blues meet in muscular grooves, melodic hooks, atmospheric tension and Kiernan's commanding, emotionally charged voice.

Their self-titled debut, released August 21, 2026, landed at #1 Most Added on both the Metal Contraband and NACC Heavy charts in its first week, then climbed to #6 on !earshot National Loud and #7 on NACC Heavy. It moves from the direct impact of *Fire Inside* and *Ghosts of Men* to the expansive blues closer *Rain*. In January 2027 the band sets sail on 70000TONS OF METAL, alongside Arch Enemy and Exodus.
